

Kendon Off-Road Trailer

 kendonusa.com/off-road-trailer/

The [Kendon Off-Road Trailer](#) is engineered to **accommodate a wide variety of off-road vehicles and versatile enough to function as a general utility trailer as well.** For all-around powersports and general-purpose trailer needs, the Kendon Off-Road Trailer can't be beat.

Sturdy enough for your off-road vehicle, smooth enough for your motorcycle, and rugged enough for any other essentials you want to tow, the Kendon Off-Road Trailer gets the job done, then **stands up to reduce storage space by over 80%.** The Kendon Off-Road Trailer is the perfect quad trailer with a large, flat deck designed to hold two full-size ATVs. The Off-Road Trailer will also hold a 2-seat UTV or Side-by-Side, multiple motorcycles, golf carts, lawn equipment, or general cargo.

Off-Road Trailer Features

Made in the USA from California steel, the Off-Road Trailer has **a 6' x 8' flat deck and will easily carry up to 2,000 lbs.** The Off-Road Trailer's heavy-duty tubular steel frame, 13-inch chrome wheels, and upgraded radial tires provide an exceptional ride for your cargo. The industrial-grade expanded metal mesh deck provides infinite tie-down points for peace-of-mind when towing. **At only 18 inches high, the deck of the Off-Road Trailer is comfortable and convenient, and the two included ramps make loading and unloading a breeze.** The Kendon Off-Road Trailer is road ready with its lightweight construction and torsion bar suspension and can be easily towed with even a small compact car.

Fold-Up Functionality

Kendon's unique fold-up, stand-up™ design means less storage space is required than a typical trailer. No need to pay for expensive storage rental or take up a bay of your garage. **Like all Kendon trailers, the Off-Road Trailer folds up and stands up to reduce storage space needs.** In storage, the UT305 Off-Road Trailer uses a whopping 80% less space than a conventional trailer. Everyone has room for a Kendon Stand-Up™ trailer.

The trailer's 101-inch width, 138-inch length, and 96-inch height (with tongue removed) is able to fold up and stand up for easy storage. **In the upright position, your Off-Road Trailer will take up about as much room as a large bedroom dresser.** The lightweight design and convenient swivel casters mean you can stand up and move the trailer by yourself.

Why Choose Kendon?

We know trailers and trailer equipment.

Kendon has been producing space-saving, stand-up™ trailers for 25 years. **Made in the USA, all trailers are handcrafted in Placentia, California by local craftsmen at the top of their trade.** When it comes to space-saving powersports convenience, Kendon is the first choice of top industry professionals and the finest weekend warriors.

Additional Products Offered by Kendon

Trailers

Along with the Off-Road Trailer, **Kendon offers 1-rail, 2-rail, 3-rail, and flatbed/utility trailer models** designed to fold up and stand up to save space, some with available ride-up capabilities. Each trailer has different features that match the specific vehicle you wish to tow.

Motorcycle Lifts

Kendon Stand-Up™ Motorcycle Lifts perform all the same functions as professional table lifts, then fold up and stand up for convenient, space-saving storage. **Our patented lifts store vertically to reduce storage space needs by over 80%.** We offer 4 different motorcycle lifts that can hold almost any motorcycle. Give your knees and back a break and work on your bike at a comfortable level.

Trailer and Bike Lift Accessories

Kendon offers many **accessories that complement our trailers and bike lifts.** Ride-Up Retrofit Kits for trailers are available, as well as tie-down kits, spare tires and wheels, trailer jack stands, bike lift frame jacks, and more.
