

PINZA AMPEROMETRICA C107

Current clamp C107

Pinza amperometrica per correnti alternate da 0.1 A a 1000 A caratterizzata da un'ottima precisione e stabilità di misura in tutto il range.

Amperometric mini-clamp for AC currents from 0.1 A to 1000 A with high measurement precision and stability all over the range.

La forma rotonda delle ganasce garantisce una elevata precisione e uno sfasamento minimo.

Dispone di un sistema di regolazione degli elementi magnetici e una struttura particolarmente resistente.

La **capacità di serraggio** di conduttori con diametro fino a fino a **52 mm** permette di realizzare misure di corrente sulla maggior parte dei conduttori installati sugli impianti industriali in Cat.III 600V.

EN The C107 round jaw shape and the uniformly-distributed winding guarantee **accuracy and minimum phase difference**.

It is equipped with an oscillating magnetic element adjustment system. Its **Ø 52 mm clamping capacity** allows current measurements on most conductors on CAT III 600 V industrial applications.
