

WHY NGALI DOESN'T ALWAYS DELIVER WITHIN A SHORT TIMEFRAME.

We try our best to deliver product to our customers as quickly as possible. However in the interests of sustainability and our commitment to being a business for good we work on a just-in-time manufacturing timeframe.

We do this to overcome the concerning trend of over production and unnecessary wastage. We believe the no-waste economy must be applied to fashion just as it is to the food industry. We endeavour to make just what we need for our customers and use materials that extend the life of the product so that it can be passed on and/or recycled.

As such we endeavour at all times to design, manufacture and deliver with this end in mind.

If you need your purchase more urgently for a special occasion please let us know by sending us a message and we will do our best to work with your timeframe.

As our customer we thank you for your understanding and for supporting us in this important endeavour.
