What created your interest to pursue saddle fitting as a career?

What created my interest to pursue saddle fitting was the opportunity to work with other riders and their horses, in creating the best saddle fit for them both.

What has prepared you to become a saddle fitter?

What has prepared me to become a saddle fitter was the skills and expertise offered to me by the amazing Debbie Witty herself, to know I have a support team behind me every step of the way.

Name one unexpected thing you have learned since becoming a saddle fitter?

One unexpected thing I have learned since become a saddle fitter, would be the 18th rib and how the saddle structure itself may or may not impact the fit of the saddle to the horse.

What is your favorite part about being a Trilogy saddle fitter?

My favorite part about being a Trilogy fitter is working with an amazing saddle line-up that I am so very proud of and I am thrilled to stand behind. Our customer service is also one of the best out there!

What is the most challenging part of being a saddle fitter?

The most challenging part of being a saddle fitter is my location. My community is mainly western/cow horse, and the dressage scene is quite small.

What advice would you give someone who is interested in becoming a saddle fitter?

The advice I would give to someone who is interested in becoming a saddle fitter, is that it's a tough first couple years, it takes time and skill. To be patient and don't lose yourself in the process. It's an amazing process and is very rewarding when you make that connection with your client and they are so happy with the end results.
