

Meet Our Saddle Fitters: Annie Campbell

October 28, 2019 - Trilogy Performance Saddlery fitters specialize in hand-fitting, flocking and providing ongoing client support for their region of the country. Trained by the best in the field and regularly educated through skill-building seminars, fitters are well-equipped with knowledge and passion for helping improve horses and riders.

We want you to learn more about Trilogy's team of fitters! Meet **Annie Campbell**, authorized fitter who services Indiana and Kentucky.

Authorized Saddle Fitter Annie Campbell

What created your interest to pursue saddle fitting as a career?

I grew up in the hunter/jumper discipline where you had one saddle that you put on every horse you rode; saddle fit was something that was never really considered. When I switched to dressage, I saw a saddle fitter come to the barn. I was curious as to what it was all about and I was amazed that I had never heard of saddle fitting and flocking. It made so much sense! From that point on, I knew saddle fitting was something that I wanted to learn how to do.

What has prepared you to become a saddle fitter?

30 years of horse and riding experience! I grew up riding and showing the hunter jumper circuit and then switched to dressage in college. I have worked with all kinds of breeds. As a horse owner and a rider, I understand how important our horses are and how we will do anything for our horses' utmost comfort!

Name one unexpected thing you have learned since becoming a saddle fitter?

It's surprising how many horses are back sore from an ill fitting saddle and they are still out there doing their jobs!

What is your favorite part about being a Trilogy saddle fitter?

I love making horses and riders happy and offering solutions to their problems. We can offer shimming and padding advice and we can also flock your current saddle!

What is the most challenging part of being a saddle fitter?

It's a challenge to see riders working horses with ill-fitting saddles. I know how much better both rider and horse can perform with the proper saddle that is fitted to both horse and rider. If only more riders realized the importance of properly fitted gear!

What advice would you give someone who is interested in becoming a saddle fitter?

If horses are your life's passion, this is the career path for you!
