

Proudly Presenting Our Elite Trainer: Ehren Volk

My first trilogy saddle found its way to me 8 years ago. It's now 12 years old and still in great condition. I've always loved the quality and fit for the horse and rider that trilogy offers. The Trilogy fitters pay such strong attention to detail and balance, which helps maintain an affective rider position, creating more harmony with the horse. With a correctly fitting saddle, the horses move freely through their backs and are very willing to learn and move in self carriage. I am so honored to be part of the trilogy team, and love riding in these saddles everyday.
