

Proudly Presenting Our Elite Trainer: Gracia Huenefeld

Trilogy is playing a huge role in my barn! This company has an incredible amount of experience that they are eager to share with those around them. They have developed an incredible array of top notch saddles that fit both horse and rider. From my first interactions with Trilogy, I knew they would be influential in both my training program and in my life. Trilogy offers more than a quality product, they bring a positive and strong team, benefiting horse and rider. I can't thank Trilogy enough for the hours they have invested in each saddle, horse, and rider in my program. Since riding in Trilogy saddles the last two plus years, my horses' backs have never been better. The support and positioning of the saddle for the rider has been second to none. The riders in my training program have ALL advanced once they move into a Trilogy saddle. The difference has been astounding. It takes a huge support system to progress in this sport, and I'm honored to be part of the Trilogy team. It's a game changer.
