

## **Proudly Presenting Our Elite Trainer: Katie Hiller Rohe**

Trilogy saddles has had an immeasurable impact on my own riding, and my business! Trilogy's are always my absolute favorite saddles to ride in not only because of their comfort, but also because of how well my horses move and work in them. They allow superb movement through the horse's backs and shoulders, and as a result they develop strong, supple top lines.

For the rider, the saddles promote a close, secure seat, an open hip, bent knee, and long leg. I have had clients that have worked on their seat and leg positions for years, and when in a Trilogy they can immediately ride with a closer seat and feel amazing results with their horses!

The Trilogy team has a wealth of knowledge. I've learned so much about horse and rider biomechanics and anatomy from the Trilogy team. There is never a question or concern that goes unanswered. They are quick to help, and any concern immediately becomes their top priority. I can't imagine working with a better company! Thank you Meg Dischler and Trilogy!
