

Proudly Presenting Our Elite Trainers: Katie Straton

From the very first time I sat in a Trilogy, I knew it was the saddle for me. I have had the pleasure of riding various client horses in the Verago, Amadeo, and Debbie McDonald. Each unique model is wonderfully comfortable and provides the rider with a perfectly balanced position and alignment, but the Verago just feels as if it were made for me. The narrow twist allows my leg to hang in the ideal position and relieves the back strain I experience in so many other saddles. I love riding in the Verago and every horse I've ridden in one loves it too! It has transformed my riding and the horses' performance. I've seen my students' balance and effectiveness improve tremendously as well.

The comfort and quality of Trilogy saddles is unmatched and I love the wide selection of unique color and trim options! Debbie has truly designed an outstanding line of saddles. The knowledge, customer service, and dedication that she and our local authorized fitter, Courtney Peiffer, provide make buying and owning a Trilogy a truly special experience. I feel so fortunate to ride in a Trilogy and have them on my team!
