

## **Proudly Presenting Our Premier Trainer: Nicol Hinde**

I first met Debbie when she came to adjust a saddle for a horse owned by a client of mine. I was immediately impressed by Debbie's thorough evaluation of the saddle and the horse's back. Debbie also took a great amount of time educating me, and my clients on how to evaluate a saddle fit. It was the most comprehensive fitting and flocking I had ever seen. Privately, I asked Debbie if she spent that much effort on all of her fittings. Her answer was yes. Years later I can confirm that statement is true. After riding in the adjusted saddle and seeing additional work from Debbie I knew I wanted to be a part of the Trilogy team. My personal saddle, the Verago, is so balanced it allows (not puts) me into a position that I can let go of all negative tension. I don't have to worry about my balance because it just is. My legs got longer and my horses move better. My position scores also went up! My students that ride in Trilogy saddles all have been extremely happy with them and the customer service is outstanding.
