

Proudly Presenting Our Rising Star: Hannah Irons

I am grateful to have been introduced to Trilogy saddles several years ago while working for JJ Tate. Right from the first ride in one, Trilogy's deep comfortable seat, attention to detail, and ability to fit a variety of horses is what made them stand out from the rest. Both of my horses love their Trilogy saddles and my vets and chiropractors always comment on how strong and comfortable their backs are for FEI horses. Correct training and a well-fitting saddle is the key to happy and healthy performance horses. Trilogy has helped my horses feel good in their backs which has helped me as a rider have a solid base to progress from. Not only do I believe in the quality and design of the product, but I am lucky to have such knowledgeable and supportive saddle fitters who are always looking out for their clients and the comfort of their horses. It truly takes a village to be successful in this industry and Trilogy is an important member of my team.
