

Routine Care Adds Years to the Life of Your Saddle!

- 
- After each use, remove any sweat or mud with a damp sponge. Allow to air dry.
 - Clean your saddle regularly with a light application of pure bar glycerin or Trilogy Saddle Soap.
 - Pores will clog with excess product. For deep cleaning, use a soft toothbrush and Murphy's Oil Soap.
 - Examine your saddle frequently and apply 100% pure Neatsfoot Oil about three times annually.
 - Climate will have a bearing on how often to apply 100% pure Neatsfoot Oil.
 - Some parts of your saddle may require oil be applied more frequently than others.
 - Use only approved products on your Trilogy saddle.
 - Please use all products in moderation.

If you have questions on how to care for your Trilogy saddle, you can locate your fitter online by [clicking here](#). You may also contact us and we will happily arrange for the fitter in your area to get in touch with you.
