

Wonderful Client Testimonial: Karen Lee

Living in a very rural part of Wisconsin and riding dressage has its challenges. Saddle fitting has not been one of those challenges for me thanks to Trilogy Saddlery, a super company. Megan Dischler has been easy to work with and Debbie Witty has shared her knowledge as well helping to make sure saddles fit all horses properly. The shallower gusset in the saddle has made a huge positive difference to my wide-framed mare. She now uses her whole body in her dressage training. I am excited to see what the future holds for her. Trilogy Saddlery is an important partner in our dressage journey. The customer service has been outstanding. We have had discussions on horses that have uneven muscling and how to shim the saddles to help the horses develop. This added knowledge has really changed how I look at each and every horse. I highly recommend this saddle company, this has been such a great experience!
