

- Innovative service to brighten, perfect, harmonise and lighten color like it happens with photographic filters
- Cream gel with a metallic texture and **completely free of ammonia**
- Suitable for tone levels from 3 to 10 and for all types of hair: natural, coloured and decolourised
- Lisaplex™ Bond Saver's build into the formula
- 100 ml 1:1 dilution
- It is not a traditional colouring
- It DOESN'T UPSET the colour, offering a real chance of look change
- Application IN ONE GESTURE and in only 20 MINUTES
- Unlike traditional colouring it requires:
 - Less labour
 - Less application time
 - Lower "skills" in the application.
- All this translates into a lower cost for the consumer
 - Duration from 4 to 6 shampoo
 - 12 shade completely mixed together
