# LISAPLEX™ filter color

Miscelare **Lisaplex™ Filter Color** in rapporto 1:1  
(esempio: 30 g di crema colore + 30 g di developer 10/20 volumi)  
all'interno dello Shaker Lisaplex™ Filter Color.

N° Nuance: 11 + 1 nuance neutra  
Formato: 100 ml

## WHAT IS IT?

Lisaplex™ Filter Color is an innovative service to brighten, perfect, harmonise and lighten color, like it happens with photographic filters.

- ◉ Cream gel with a metallic texture and completely free of ammonia
- ◉ Suitable for tone levels from 3 to 10 and for all types of hair: natural, coloured and decolourised
- ◉ To be used in a 1:1 blend with Developer Lisap 10-20 Vol
- ◉ Formula enriched with Organic Protein Complex, which guarantees a cosmetic effect and protection
- ◉ The 12 shades can be blended together to create new tints
- ◉ Fragrance characterized by the effervescent notes of Raspberry and Lemon. A velvety and enveloping heart with Jasmine and Violet and a soft base of musky and woody notes.

## TO WHOM IS IT DEDICATED?

To all types of hair, natural, coloured, decolourised with  
**TONE LEVELS FROM 3 TO 10.**

### All women who want to:

- Try something different, in terms of colour, **WITHOUT UPSETTING (STRIPPING?)** their starting colour;
- **PERFECT, BRIGHTEN, LIGHTEN AND HARMONISE** the colour all in one go, in just a few minutes and at an accessible cost.

### Clients:

- With natural regrowth
- With pre-existing highlights
- Who want to blend (fade?) the natural part while brightening and refreshing the highlights
- Who want to neutralize unwanted tones on highlights
- With **PREVIOUSLY COLOURED HAIR**, who want to intensify, refresh or lighten their colour
- With **NATURAL HAIR** who are approaching a technical service for the first time and are looking for a natural lightening/toning effect, without upsetting their current look.

## WHY?

### **It is not a traditional coloring.**

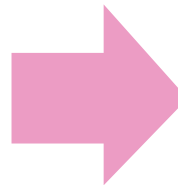

With a “normal” colouring you can't achieve the same results like with Lisaplex™ Filter color.

**It DOESN'T UPSET** the colour, offering a real chance of look change.

Application **IN ONE GESTURE** and in only **20 MINUTES**.

Unlike traditional colouring it requires:

- Less labour
- Less application time
- Lower “skills” in the application.  
(Even the youngest worker can do it)

**ALL THIS  
TRANSLATES INTO  
A LOWER COST  
FOR THE CONSUMER.**

## DURATION

---

The Lisaplex™ Filter Color service lasts for **4 to 6 shampoos** depending on the hair type, meaning you can change your filter when you want, with the help of your salon professional.
