# night & day bocce ball

Break out the tenalach Night & Day Bocce set and have a ball. Well, many of them. If you're looking for laughs, look no further than a little backwoods bocce.

The object of Night & Day Bocce Ball is to roll your bocce closer to the pallino (jack) than your opponent(s).

Night & Day Bocce Ball can be played outdoors on a gravel, sand or grass surface. A suggested court size is approximately 12' wide (3.6m) by 60' long (18m). Mark a foul line at the beginning of your court. Adjust playing area size as needed.

## GAMEPLAY

**Bocce Ball consists of several frames (rounds).**

1. Determine who goes first with a coin toss.
2. Team One begins the game by throwing the pallino, and then rolls their first bocce as close to the pallino as possible.
3. Team Two then tries to roll a bocce closer to the pallino than Team One. Both teams continue to take turns, one player at a time, until all bocce have been tossed (Team One rolls a bocce, Team Two rolls a bocce, then Team One, etc.)
4. After all bocce are tossed, the Team with the closest bocce to the pallino scores. This team earns a point for every ball that is closer to the pallino than their opponents'.
5. The team that scores in a frame starts the next frame by throwing out the pallino and playing its first bocce.

## **SCORING**

Only one team receives points for each bocce closer to the pallino than the opponents' closest bocce per frame.

A team can score up to four points per frame.

If two opposing bocce appear to be the same distance away from the pallino, use the measuring tape to confirm which is closer.

If the closest bocce of each team is equal in distance from the pallino, no points are awarded.

The first team to 12 points (or how many points you've decided beforehand) wins.

## **STRATEGY**

Players can knock the opponents' ball away from the pallino.

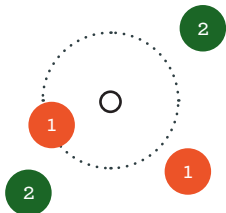

Players can knock the pallino toward their own team's bocce.

## **SAFETY**

We recommend that players stay outside of the playing area when balls are being tossed.

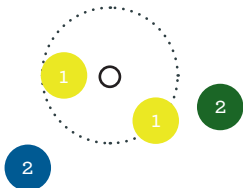

## SCORING EXAMPLES

Team 1: Red and Yellow / Team 2: Green and Blue

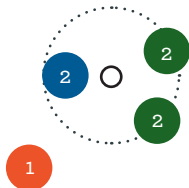

Red has the closest ball to the pallino. Team One wins this frame and earns 1 point.

Team Two's green ball is closer than the other red ball, preventing another point for Team One. Team Two earns no points.

Team One has two yellow balls closest to the pallino.

Team One wins this frame with two points. The distance of the other balls do not earn points.

Team Two has the three closest balls.

Team Two wins this frame and earns three points. The distance of the other balls do not earn points.
