

Africa Cork Stools

Wiid Cork and Timber Furniture Collection

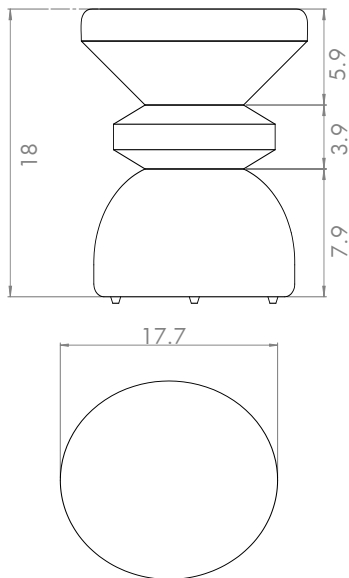

Bring an indigenous and organic warmth to your space with these durable and beautifully crafted African cork stools; from Cape Town in South Africa. The dark cork is manufactured from recycled cork particles and is produced without the use of additives making it fully rated for outdoor and indoor use. Whereby the light cork is 98.5% natural with a small amount of adhesive to bind the granules, making it durable and user friendly, but due to its greater water absorption capabilities, it should be reserved for indoor and covered outdoor use only.
