

# IntelliSkin® Next Gen and GDS® Vehicle Dock for Zebra EC50 & EC55

This spring-loaded powered dock is designed specifically for the Zebra EC50 and EC55 enterprise mobile computers wrapped in an IntelliSkin® Next Gen protective sleeve. The GDS® Dock™ features integrated pogo pins that provide charging capabilities to the device while docked and plugged into a power source via 1.2m long USB Type C cable. While keeping the Zebra EC50/55 secure, this powered dock also leaves the device's top scanner, buttons and camera exposed and usable. Available space in the back accommodates standard and extended battery packs as well as the OEM hand strap. Additionally, the IntelliSkin® Next Gen includes integrated loopholes to accommodate hand straps. For mounting, pair this dock with a B size RAM® diamond ball base and B size mounting components.

**Compatible Device:**  
Zebra EC50 & EC55

**RAM-GDS-SKIN-ZE16-NG**  
**RAM-GDS-DOCK-V11CU**
