

iOS Solutions for Your Fleet

ELD Mandate

There Are Many Benefits of the ELD Mandate

Drivers save time by reducing paper

Dispatchers stay informed about a driver's status with updates

Reduces hassle of maintaining a paper log

Safety is improved through transparency of driver behavior

Important ELD Mandate Milestones

June
2012

Congress enacted MAP-21: "Moving Ahead for Progress in the 21st Century" bill stating Electronic Logging Devices (ELDs*) must be implemented to record Hours of Service (HOS)
* Smartphones and tablets also work if they meet FMCSA requirements

December
2015

Final ELD mandate rules published

December
2017

Commercial Motor Vehicles (CMVs) must have either an Automatic On-Board Recording Device (AOBRD) or an ELD installed by December 18, 2017

December
2019

A registered and ELD-compliant device must be installed by December 16, 2019

What Makes IntelliSkin® the Best Choice for Your ELD?

GDS® Always Protected.
Always Connected.™

IntelliSkin® with GDS® allows you to protect, dock, and charge your device so you are always protected, always connected.

Case protects device from drops

Shock-absorbing rubber ball reduces vibration and device wear

Overmolded charging connector protects the charging port

Rugged mount secures your device where you need it

Universal connection helps future-proof your business

GDS® dock allows you to easily charge your device in your vehicle

IntelliSkin® with GDS®

Protect.

Certified MIL-STD-810G drop protection

Charge.

Integrated charging connector keeps your device powered

Dock.

The distinctive D shape™ connector standardizes vehicle and desktop docks

Rugged Protection

IntelliSkin® is a rugged case for consumer tablets that allows for frequent device docking and undocking. This case extends the life of your device by providing MIL-STD-810G drop protection and preventing damage to the device charging connector from repetitive plugging and unplugging. IntelliSkin® and GDS® is a new standard platform for making connections between any electronic device and a dock for power and data communication.

Award-Winning Technology

The Material Handling Institute and the Consumer Technology Association have both recognized IntelliSkin® and GDS® with awards for innovation. The awards honor the groundbreaking design and engineering that IntelliSkin® offers your fleet.

ELD Pro Bundle

Featuring an IntelliSkin® case to provide maximum device and charging port protection, the pro bundle also comes with a GDS® dock to allow for in-vehicle charging. Additional components include a drill-down dash mount that absorbs shock and vibration, a backing plate for increased support, a hardwire charger and locking/non-locking options.

How Does IntelliSkin® Deliver a Scalable Solution for Your Fleet?

Devices Evolve – Future Proof Your Investment

When the time inevitably comes to upgrade your ELD-compliant tablets, the IntelliSkin® with GDS® Technology™ ecosystem standardizes your charging connector so you can always use the latest technology.

The Ideal Solution for Your Fleet

IntelliSkin® with GDS® Technology™ is the ideal solution to protect your device and keep it charged. When charging isn't needed, RAM® Mounts offers two spring-loaded, quick release cradles.

RAM® Tab-Tite™ for light duty use

This cradle's interchangeable end cups can be replaced to accommodate new devices, lowering the cost of upgrading your hardware.

Spring-loaded cradle allows for quick removal of your device

Interchangeable end cup

RAM® Tab-Lock™ for heavy duty use

This cradle provides a secure fit with easy access to the mounted tablet. The dock features a keyed lock for theft deterrence.

Interchangeable end cup

Side arm accessory for extra support in landscape mode

Lock for theft deterrence

Secure Your Device with the Durable RAM® X-Grip®

The spring-loaded RAM® X-Grip® is a secure solution for mounting your phone or tablet in-vehicle. Built with stainless steel components and high-strength composite, the RAM® X-Grip® delivers durable and easy-to-use mounting for your devices.

RAM-HOL-UN7BU
for iPhones

RAM-HOL-UN10BU
for larger iPhones

RAM-HOL-UN8BU
for 7" - 8" iPads

RAM-HOL-UN9U
for 9" - 10" iPads

RAM-HOL-UN11U
for 11" - 12" iPads

Drill-Down Dash Mount

The 2.5" base can be screwed into any structural surface and the arm is available with a standard knob or a locking knob. Use our backing plate accessory for extra support to your mounting surface, ensuring your device is secure.

RAM® Pod HD™

Blending the best of versatility, strength and installation ease, the RAM® Pod HD™ is a universal RAM® No-Drill™ vehicle mount. Compatible with a wide range of vehicles, this tablet stand provides a sturdy, adjustable mounting solution.

Vehicle Mounting Solutions

Vehicle Mounting Solutions

RAM® Stubby™ Cup Holder

The RAM® Stubby™ cup holder is a low-profile base that fits into any cup holder. The durable composite shell and flexible support fins can be trimmed to size, making this base a portable and versatile solution.

RAM® Twist-Lock™ Suction Cup

Use the RAM® Twist-Lock™ Suction Cup to attach devices to your windshield, side window or any other non-porous surface. The mechanical RAM® Twist-Lock™ seal of the suction cup latches onto flat surfaces with a strong connection.

Any Vehicle. Any Device.
