1” BALL ADAPTER LOCKING INSTRUCTIONS

GET TO KNOW YOUR MOUNT
requires Peak Design Case or MagSafe Phone/Case not included

INSTALLATION
Connect Peak Design 1” Ball Adapter to 3rd party 1” ball and socket mount. Tighten to 3rd-party specifications.

ATTACH/DETACH PHONE
To attach, place phone on mount and listen for “click” to ensure phone is locked. Requires Peak Design Case (sold separately)

To detach, push EITHER of the Release Buttons and pull phone outward.

Stay safe. Do not interact with or remove your phone from the mount while in motion.

Vibration Dampener
Prevents engine from damaging the phone’s camera.
By design, the Vibration Dampener allows the Mount Head some wiggle.

Locking Teeth x2
Release Button x2
You only have to press one to release phone!

Embedded Magnets x4
