Collar Set
31.8mm (1-1/4")
comes installed

Thumbscrew

Accessory
Mount

GET TO KNOW YOUR MOUNT

Release Button x2
You only have to press
one to release phone!

MOUNT INSTALLATION

1. Use **Hex Key** to loosen the **Clamp Screw**. **Tip:** Remove hex screw and replace with thumb screw for "flip-to-film" mode.

2. Select preferred location to install **Out Front Bike Mount** (see mounting options).

3. If needed, replace **Collar Set** to match your bike's handlebar diameter. Push until you hear a "click". The 31.8mm (1-1/4") collar comes installed and fits most road bike handlebars.

4. Partially tighten **Clamp Screw**, rotate **Out Front Bike Mount** to desired angle, tighten to secure. Max torque: 2 N*m.

ACCESSORY MOUNT INSTALLATION

Use Accessory Mount to install GoPro compatible bike light or action camera.

1. Remove **Head Screw** and **Washer** behind **Mount Head**.

2. Install **Accessory Mount**. The **Washer** is not used in this configuration.

3. Install **Out Front Bike Mount**.

4. Attach light or action camera.

MOUNT USE

Attach/Detach Phone Requires **Peak Design Case** (sold separately). Place phone on mount and listen for the "click" to ensure your phone is locked. To remove, push just one of the **Release Buttons** and pull phone.

Flip-to-Film

The optional **Thumb-screw** allows you to quickly adjust the mount angle for filming or time-lapses. Tip: use the ultra-wide setting on your phone.

MOUNTING OPTIONS

Mount your phone to fit your riding style.

FLUSH MOUNTING

How to Flip the SlimLink™ Mount Head

1. Remove the **Head Screw** and **Washer**.

2. Remove the **SlimLink™ Mount Head** and reinstall on the underside of the **Arm**.

3. Mount to your handlebars (per installation instructions).

Pro Tip: Landscape Mode

If you find yourself consistently using your phone in landscape mode, consider reinstalling the **SlimLink™ Mount Head** at 90° for easy access to the **Release Buttons**.

! Stay safe. Do not interact with or remove phone from the mount while in motion.
