## Salon Equipment Distributors Create Your Own Image

Beautiful as the name suggests, it was born to introduce innovative products for the salon industry. Every item has been carefully selected to enhance the salon experience.

We continually strive to marry excellent quality with great value for money. This has allowed us to become the market leader in the distribution of salon equipment.

Our vision has always been and will continue to be, the satisfaction of our clients and the continued growth of their business by providing unrivalled service and great products.

As a BBBEE company, we strive to uplift the lives of our employees. With this understanding, we are able to deliver unparalleled levels of service to the industry.

### Our Mission:

To be the most reputable wholesale distributor of salon products with the widest range.

## BELLEZA

hairdressers choice

Belleza hair dryer is lightweight and economical, yet loaded with professional functions and features. Dries hair fast; leaving it smooth silky, soft and frizz-free. May also be used to set perms or other hair treatments.

Full Power:

Premium 1,000-watt, dual-looped, stainless-steel heating element and multi-bladed fan provide for fast, quiet, efficient, and even heat.

Premium Bonnet:

Hood is made from durable tinted acrylic and is generously sized (10-1/2" x 9-1/2" opening) to accommodate even the largest rollers. Hood features a hinged front visor for convenience.

Fully Adjustable:

Spring-loaded pedestal base allows dryer's height to be easily adjusted and locked in place via the tension knob. Bonnet swivels on the base and tilts up and down. Height adjusts from 50" to 64" (measured from floor to top of hood when hood is horizontal, hood opening will be lower when tilted down for normal use). Unit rolls on smooth-rolling, swivel casters (black: 29" diameter plastic base on 5 casters / white: 27" diameter metal base on 4 casters). Minor assembly of base required.

Timer and Temperature Settings:

Preset your session lengths with the sixty (60) minute timer featuring automatic shut-off. Adjustable temperature control for heat settings up to 165 degrees Fahrenheit (75 degrees Celsius).

Colours:

White , Black and Red
