

Assembly Instructions for Mounting Plate

Loosen the 4mm set screw on the end of the gooseneck first. Then insert the 3/8" screw through the mounting plate and washers as shown. Tighten the 3/8" screw so that the spring washer is just compressed. Then gently tighten the set screw.

NOTE: 7/32" and 2mm Allen wrenches are included for assembly/disassembly. Keep these in a safe place.

TOOLS REQUIRED: 2 mm and 7/32" Allen wrenches (included)

IMPORTANT: If you wish to disassemble your SnakeClamp, loosen the set screw using the included 2mm Allen Wrench **PRIOR** to removing the 3/8" screw.
