## PROFESSIONAL TATTOO EQUIPMENT

Innovative and patented Cheyenne Safety Cartridges have been setting new standards since 2007. They are sterile, individually packaged, and intended for single-use – safe and easy!

Cheyenne Cartridges allow you to exchange needle cartridges quickly, safely, and easily—ready to go in seconds. Switch effortlessly between the 56 different configurations while you're working. The Cheyenne Safety Cartridge-System ensures that the needles have much less freedom of movement at the tip, eliminating wobbling and slip-ups, leaving only precision.

The refined design of the Safety Cartridge also prevents ink from running from the needle tip onto the grip or further into the machine, making it a testament to innovation, hygiene, and safety.
