## Preparation Instructions for General Pest Control Treatment

To Whom It May Concern:

In order to service your apartment/home properly we need you to follow these instructions. Your assistance will enable us to do our job more thoroughly. If you have any questions after reading this, please feel free to call/text/email our office with questions.

### **Please do the following:**

- Tenants should tell technician everywhere they see pests in apartment/home
- Keep all samples of pest for technician to identify
- Clean up alternative food sources.
  - Pests are more likely to feed exclusively on baits.
- Empty trash containers frequently.
- Keep the dishwasher closed or empty
- Pick up pet food & water every night.
- Store pet food in metal bins.
- Rinse and store recyclable items in metal containers.
- Remove all articles from under the kitchen and bathroom sinks.
- Vacuum thoroughly.
  - A small crumb is a feast to roaches and mice.
- Move all items away from radiators
- Move all items away from toilet pipelines
- Leave the walls of the basement accessible

### **Please *DO NOT* do the following:**

- Don't spray any insecticides (Raid/Foggers/D-con).
  - Killing pests will prevent them from returning to their harborage or colony. In addition, the insects may be repelled by insecticides and will avoid treated areas.
- Do not put loose bait around your home/basement etc.
- Don't use strong cleaners around professional products.
- Don't remove or disturb professional products.

Be patient. It will take a little time to work.  
Thank you for your business & your cooperation.
