

PRODUCT DATA

CRYSTALITE

DESCRIPTION

A specially-developed metal interlock acrylic floor finish and sealer. Dries crystal clear to an exceptionally bright, super-hard, extra-durable finish that is highly resistant to abrasion, scuffing, heel marking, scratching and powdering, even under the heaviest traffic. Contains 22% solids to save time and labor in floor finishing operations.

FEATURES

- Versatile
- Faster gloss build
- 22% solids
- High coverage
- Water-based
- Slip-resistance
- Economical
- Low-maintenance
- Ease of application/removal
- Durability

BENEFITS

- Can be used on a variety of resilient and non-resilient surfaces without a sealer.
- High-solid content provides maximum gloss with fewer coats. (Minimum of 3 coats recommended for maximum gloss and protection.)
- Effective polish application in only 1-2 coats.
- Covers 400 - 500 sq. ft./ litre.
- Faster drying, easy to apply, low VOC's.
- Meets or exceeds Slip Resistance Standards (when properly maintained) established by CSPA and UL as tested in accordance with ASTM D-2047.
- Single product for both sealing and finishing.
- Dries to a hard, clear coating, allowing use of low-maintenance spray buff or burnishing procedures.
- Levels with no streaks/mop trails; dries in 45 minutes. Recoats/blends well with existing coats. Easily removed with Turbo Strip or Super Stripper .
- Long-lasting and scuff-resistant

APPLICATIONS

Use in offices, shopping malls, utility plants, etc., on any floor surface where high-solids/low-maintenance polishes and finishes are commonly used, or where there are several flooring types at one location, such as:

- | | | |
|--------------------------------|-----------------|----------------------------------|
| Grocery Stores & Supermarkets | Hotels & Motels | Nursing Homes & Hospitals |
| Schools & Educational Services | Shopping Malls | Warehousing & Storage Facilities |

COMPANION PRODUCTS

For spray buffing and restoring: Turbo Matic
