

EASY KLEEN

Automotive Shampoo

Concentrated - produces excellent car washing results even with extended dilutions.

Safe on metal, plastic and glass surfaces.

EASY KLEEN is a highly concentrated blend of high foaming detergents formulated specifically for manual, coin-operated and automatic car washing applications. Contains no abrasives, free alkalies, or acids. Phosphate free and biodegradable

EASY KLEEN is designed for use through a wide variety of application systems. May be mixed with either hot or cold water. Used by automatic and self-serve coin operated car washes. **EASY KLEEN** is excellent for hand application in automotive detail shops.

EASY KLEEN is safe for use on any automotive finish. It will not harm decals, pin-striping (tape or painted), and decorative lettering.

High foaming provides excellent brush lubricity protecting car wash equipment and automotive finishes.

Streak free outstanding rinsing action results in a clean car void of water marks or streaks.
