

PRODUCT DATA

GRAFFITI AND VANDALISM MARK REMOVER

WATER BASED

GRAF X can be used to remove spray paints and permanent marker ink from brick, concrete, metal, glass, and even painted surfaces such as bathroom stalls, automobiles, and road signs.

GRAF X provides cost, performance and safety with a minimum impact on the environment.

Directions: Apply by spray, wait for 2-3 minutes. Agitate with a stiff brush if necessary. Rinse with clean water. Permanent ink can be removed from painted surfaces by applying the formulation to a dry rag and wiping the surface.

It is always recommended to test in an inconspicuous area if using on a painted surface as some paints may be damaged.

Refer to the Label and Material Safety Data Sheet for use and safety information.

FOR INDUSTRIAL and INSTITUTIONAL USE ONLY.
