# *Green Apple Disinfectant Bowl Cleaner*

## **Safe Acid Bowl & Washroom Cleaner**

**CLEANS - DESCALES - DEODORIZES  
REMOVES RUST AND STAINS  
CLINGS TO VERTICAL SURFACES**

**GREEN APPLE** removes hard water deposits, soap scum and most stubborn stains from porcelain, plastic tile, fiberglass, vitreous china, and stainless steel. This high performance cleaner combines detergents and organic acids for safe use on all bathroom fixtures. Because it clings to vertical surfaces, it works on tough cleaning problems where others fail.

**GREEN APPLE** is ideal for use on toilet bowls, urinals, sinks basins, shower stalls, water fountains, etc..

**TOILET BOWLS:** Flush and then force as much water as possible from the bowl by pushing it over the trap with a bowl mop. Apply **GREEN APPLE** with the mop, cleaning the entire inside surface. Flush to rinse bowl and mop in the water.

**URINALS:** First flush. Saturate the mop head with **GREEN APPLE**, then thoroughly wet and clean all the surfaces. Give particular attention to the grooves along the sides of the water outlets at the top. After the surface is clean, remove the urinal bottom screen and pour 2 to 5 ounces on the edge and into the trap. Allow to stand 3 to 5 minutes, then swab inside pipe thoroughly. Replace screen and flush.

**FOR INDUSTRIAL OR PROFESSIONAL USE**
