

SCALE - X

CLEANER AND DESCALING CONCENTRATE REPLACES MURIATIC ACID

Scale-X is a new concept in chemical acid cleaners. It is formulated with special chelating agents for deep penetration and inhibited to control the harshness associated with straight acid cleaners.

- ◆ Removes scale, mineral and lime deposits
- ◆ Removes rust and corrosion
- ◆ Harmless to most paint and finishes
- ◆ Excellent descaler for heating and cooling systems

Scale-X is an efficient way to clean and descale boilers, steam generators and air conditioning systems.

Scale-X cleans masonry and helps remove excess mortar, plaster and efflorescence from brick work and ceramic tile.

Scale-X cleans pool equipment and helps prepare pools for painting. It also helps clean pool sides of oils and dirt, without affecting the pool pH.
