

## PRODUCT DATA

# TERRA SEAL

## Acrylic Undercoat and Sealer

- Forms a protective barrier
- Improves floor adhesion on non porous floors
- Enhances gloss and appearance
- Versatile

**Terra Seal** has been specially formulated for a wide variety of floor surfaces. It is particularly useful when preparing non-porous and porous floors, such as quarry tile, concrete and stone.

It improves both gloss and appearance of the finished floor and saves money, by allowing extra coverage of the top coats applied.

**Terra Seal** provides extra protection against soil abrasion and penetration. It helps resist staining and wear from coffee, soft drinks, urine, water, detergents and ice melting compounds.

**Terra Seal** may be used on asphalt, vinyl, vinyl asbestos, linoleum, rubber, terrazzo, concrete, quarry tile and stone floors.

**Terra Seal** may be safely used with most water based finishes and
