

APPLE FRESH

Concentrated Water Soluble Deodorant

APPLE FRESH is a concentrated water-soluble deodorant. Designed to control odors in offices, restaurants, day care, nursing homes and hospitals. Use wherever odors are a problem. **APPLE FRESH** leaves a clean fresh scent. Formulated for effective deodorizing action against all common odor sources such as those originating from pets, smoke, mustiness, vomit, food, urine, etc.

Compatible with most cleaning solutions. May be added to mop water, carpet shampoo and extraction detergents. For long-lasting room air deodorizing add **APPLE FRESH** to humidifiers, heating and air-conditioning ducts. Use it in the washing machine to control laundry odors.

Room Deodorizing: Add one to two ounces of concentrate for each gallon of cleaning solution (rug shampoo, extraction detergent, disinfectant, all-purpose cleaner, etc.) used. Use more concentrate when fogging fire odors or for severe problem odors.

Pet Odors: Use undiluted. Spray directly on odor source.

Bed Pans: After cleaning bed pans, add a drop of concentrate directly into bed pan before returning to patient.
