## PRODUCT DATA

## AUTO DISHWASH

## **MACHINE DISH WASHING DETERGENT**

Auto Dishwash is a heavy duty alkaline dishwashing detergent for use in conventional dish washing machines using automatic feed systems.

**AUTO DISHWASH,** is formulated for washing china, glass, plastic ware and cutlery effectively and economically. Not recommended for aluminum cookware.

**Directions:** For better cleaning always scrape off excess food soil and other particles, before racking dishes. This will help prevent their entry into the wash tank which otherwise would cause foaming and prevent good cleaning. Rinse with moderately warm or hot water.

Meter **AUTO DISHWASH** to maintain a pH of 14 in the wash water. Generally a dilution of 60 to 120 ml. (2 to 4 ounces) per 4 litres of wash water. Temperature should be maintained between 60 °C to 80 °C (140° to 180°F). Check with your local health authorities for mandatory sanitizing requirements.

Refer to the Material Safety Data Sheet for safety information. FOR INDUSTRIAL and INSTITUTIONAL USE ONLY.
