

PRODUCT DATA

pH POWER

23% Hydrochloric Acid Bowl Cleaner

Super concentrated

Removes even the heaviest buildup of hardwater, rust, water scale and uric acid stains.

pH Power is a concentrated blend of quick acting hydrochloric acid, detergents, and deodorizers, designed for cleaning toilet bowls and urinals.

Formulated for increased activity in hard water areas.

pH Power is a ready-to-use, industrial strength product for use on severe scale and rust deposits, in toilet bowls, urinals. Typical use rates are from 20 mL to 50 mL, depending upon bowl size and severity of the soil.

After cleaning fixture should be flushed to ensure complete rinsing action.

Safe for all vitreous fixtures that are in good condition (no cracks, chips or deep scratches).

Do not use **Ph Power** on sinks, bathtubs, or other porcelain enameled surfaces.
