

# Whatever the need, we've got you covered.

*No one beats our selection of quality remanufactured and new medical equipment or our expert service.*

1

## *New Equipment* **The Ultimate in Performance and Reliability**

Maximum reliability, superior performance and competitive pricing are the trademarks of Southwest Medical Corporation. Known for years in the marketplace as a leading supplier of refurbished equipment, Southwest Medical now sells and services new equipment from manufacturers including Nihon Kohden, ZOLL, SciCan USA, Biodex, MAC Medical, Conmed, Tuttner, Blickman, Pedigo, Medical Illumination and MPD Medical.

The experts at Southwest Medical Corporation help doctors, department heads, administrators and education professionals select new equipment that best fits their medical and budgetary needs... whether for surgery, patient rooms, endoscopy, anesthesia, OB/GYN, CCU or nursing programs.

And, because Southwest Medical has been selected as an authorized service provider for a vast array of leading equipment manufacturers, each purchase is accompanied with the peace of mind that comes with working with a single, reliable and experienced equipment partner.

2

## *Refurbished Equipment* **All the Performance and Half the Cost**

For many medical organizations, purchasing refurbished equipment is a cost effective alternative to purchasing new. The best selection of quality refurbished equipment can be found at Southwest Medical Corporation. By pioneering and participating in a vast buying and selling network, Southwest Medical is able to procure, refurbish and sell the highest performance and latest model used equipment in the industry.

In fact, Southwest Medical has been awarded "first right of refusal" for purchasing and renovating used equipment by several leading medical equipment leasing companies, original equipment manufacturers and major healthcare organizations.

Before delivering your pre-owned equipment, Southwest Medical's team of factory-trained engineers uses its expertise to certify the devices within their original performance standards. To achieve the highest quality assurance, Southwest Medical maintains one of the industry's most modern and certified refurbishment facilities in the US.

3

## *Expert Service* **We Stand Behind Our Products... 24-Hours a Day**

With each purchase, Southwest Medical Corporation assigns a personal, certified biomedical technician who is familiar with the history of the equipment. After the equipment is delivered and installed, your personal technician is available 24-hours a day via a toll-free direct line.

Southwest Medical prides itself on its extraordinary customer service and quality workmanship. Each piece of equipment is backed by the most comprehensive warranty in the industry including 24-hour availability, immediate assistance, loaner equipment and expedited parts replacement. Southwest Medical guarantees every piece of equipment for maximum performance and maximum reliability.

***"When you purchase Southwest Medical equipment, you can rely on fast, dedicated and expert service."***
