

GP03P Pink gold pen plating solution

- Gold pen plating solution
- Pink gold color
- Great for two-tone plating applications
- Good color repeatability
- Worthy tarnish resistance
- Nickel, lead, and cadmium free

GP03P is a pink gold pen plating solution which deposits a brilliant pink color to the surface applied. It is a perfect solution for two-tone plating applications where a pink color is required. It can also be used to highlight specific details or cover solder joints on pink gold items. This pink gold pen plating solution is nickel, lead, and cadmium free, and despite being a traditional cyanide based alkaline chemical, it is easily transported given the toxic level contained is below the limit established by international transportation laws.
