Components

The Pro Pod

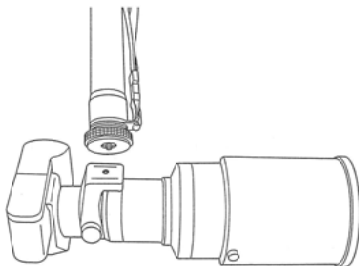

The Pro Pod 5

The Pro Pod Sport

1. Camera Platform
2. Camera Mounting Screw
3. Camera Platform Rotating Plate
4. Soft Rubber Grip
5. Removable Wrist Strap
6. Leg
7. Leg Lock
8. Rubber Leg Tip

Attaching a Camera/Lens

Support Camera/Lens with one hand and screw monopod into tripod socket. Always check the screw engagement, and rotate the monopod slowly, and carefully, in the beginning.

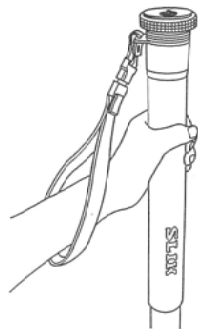

The Camera Platform Rotating Plate will not damage the camera base. It acts as a washer, to give the camera a secure grip.

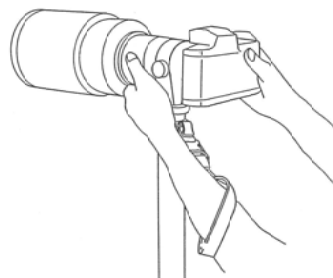

The Pro Pod Sport

Soft Rubber Grip

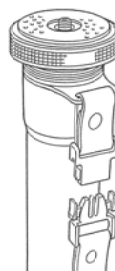

The large Soft Rubber Grip gives you a wide area to grasp and keeps your hands from slipping. It also stays warm and easy to work with even in the coldest weather.

Removable Wrist Strap

The Wrist Strap rotates freely. As a safety measure it is advisable to hold the camera through the Wrist Strap.

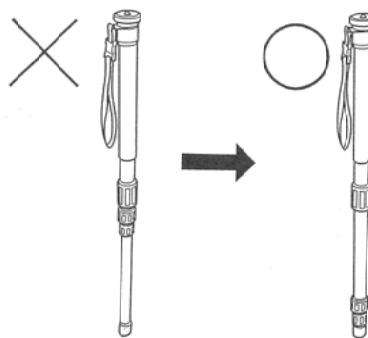

The Wrist Strap can be removed.

Extending Legs

Release the Leg Locks by rotating one half turn. Because the legs are grooved, the Leg Locks can be released in any order.

Note: Extending the larger legs first gives you better support. Extend legs from the top. Fold legs from the bottom.

How to Care for Your Product

- Do NOT apply any oil, grease to this product.
- To clean, use a mild detergent on a soft cloth.
- Do NOT bring close to fire. Avoid extreme heat, such as leaving it in a car on hot summer day.
