⚠ Caution

This product has been designed to handle equipment weighing under 5 kgs (11 lbs). Do not overload. Some equipments weighing under 5 kgs (11 lbs), such as long lenses, may not balance well due to its weight distribution. In such case, please use a larger Panhead.

Install the panhandle

Panhandle are installed as shown. There is not difference in length between the panhead, and screw into the back of the pan & tilt handle.

Storage

Remove the vertical tilt handle from the panhead, and screw into the back of the pan & tilt handle.

Built-in level

Adjust the built-in level to fit into the middle.

Attaching the camera to the quick release platform

Remove the quick release platform turning the lock lever.
In this case, please do not put the lock lever back by force as it has been stood by the stopper.

Align the length of the platform along the base of the camera body, and securely tighten the mounting wing nut.

When you fix this quick release platform to pan head, the quick release lock lever will return to the original position automatically. We, however, recommend you to tighten this lever more to secure the fixing.

Using the pan head

Loosen the pan & tilt handle, and the head will tilt back and forth.

Loosen the panning lock knob, and the head will rotate along the horizontal direction.

Loosen the vertical tilt handle, and the level can be adjusted.

Setting the pan head from the center column

Set the new head, or accessory on the tripod's threaded post, and turn clockwise until it comes to a stop. Tighten the panning lock knob and turn clockwise slightly more.

Removing the pan head from the center column

Use the following instructions if you wish to change to another heads, or attach accessories.
First, lock the panning lock knob, then grasp the pan, or vertical tilt handle and turn the head, counter-clockwise to loosen.

Care of the Tripod
