HEMP CBD HERBAL PRODUCTS

Dragonfly Botanicals is a brand of Taspens's Organics. We are proud to bring our award-winning products to the world with the added benefits of hemp CBD oil. We know you will LOVE them as much as we do!

WHAT IS CBD?

Cannabidiol, also known as CBD, is one of the non-psychoactive, 80+ naturally occurring cannabinoid compounds found in hemp extract. Hemp is often confused with medical marijuana but is a completely different species of the cannabis plant & contains only the Federal legal limit of 0.3% THC or less.

HOW DOES CBD WORK?

The human body contains several cannabinoid receptors that are part of the endocannabinoid system (ECS), which is involved in a variety of physiological processes to help the body maintain overall health. The ECS is involved with balancing our moods, sleep cycles, metabolism, hormones & more.

Phytocannabinoids such as CBD, CBN & CBG work by interacting with the endocannabinoid system to keep your body in balance.

IS HEMP CBD LEGAL?

Yes! In 2018, Congress passed the 2018 Farm Bill. This means that Industrial Hemp (grown commercially with less than 0.3% THC content) has been removed from the schedule 1 drug list & is now federally legal.

WHY FULL SPECTRUM HEMP EXTRACT?

Our whole plant extract contains a full range of cannabinoids, terpenes, flavonoids, other beneficial compounds & less than 0.3% of THC. These components work synergistically with each other & are more effective when they are found together as nature intended versus when isolated. This synergism is known as the entourage effect. Full spectrum hemp extract not only contains CBD but also contains CBN, CBC, CBG & other minor cannabinoids.

WHY BROAD SPECTRUM HEMP EXTRACT?

Contains all the full spectrum hemp extract components & has less than 0.01% THC.

WHY ISOLATE HEMP EXTRACT?

THC FREE! Our isolate only contains cannabidiol (CBD) without any other cannabinoids.

WHY CHOOSE DRAGONFLY BOTANICALS FOR YOUR HEMP CBD PRODUCTS?

We use the highest quality organic Colorado-grown, industrial hemp & the cleanest extraction processes. CO2 & water extraction are the most natural & cleanest forms of extraction because it requires no harsh chemical solvents & allows us to extract all the beneficial phytonutrients found in the hemp plant. Not all companies choose organically grown hemp & extraction processes vary dramatically, some using harsh toxic chemicals.

THIRD-PARTY LAB TESTING

Every batch of our hemp extract is third-party lab-tested to ensure potency & purity. The lab tests verify that our products are free of microbial content, pesticides & heavy metals. The certificates of analysis (COA) are available on our website.

TASPEN'S ORGANICS

Taspens's Organics, our original non-cannabis natural skincare & wellness brand manufactures a Superfruit Facial Care line with plant-based retinol which brightens, tones & rejuvenates the skin. FROM OUR FAMILY TO YOURS!

Founded in 2007, Taspens's Organics was formed by Keith & Heather Baruch, naming it after their children, Taylor & Aspen. In 2018, the Dragonfly Botanicals Hemp CBD line was created by taking the top selling Taspens's products & adding CBD from the hemp plant to them. We are passionate about safe, toxic-free, organic skincare, natural health & wellness products. Each product is made with the highest quality organic herbs, oils & essential oils.

Exceptional skincare is only as good as the ingredients used to make it.

We are committed to never using synthetic ingredients, harmful preservatives, sulfates or parabens in any of our products!

We are truly grateful to share our love of natural health & wellness with you. Thank you from the bottom of our hearts for your support!
