THE MANY USES OF ALOE VERA

The Ancient and Modern 'Miracle Plant'

GREEN LEAF NATURALS PURE ALOE VERA GEL AND SPRAY

From the farm to you, Green Leaf Naturals' aloe is made from 100% organic aloe vera in its natural state.

Our Aloe Vera Gel has a thinner consistency than other aloe products because it is not loaded with artificial thickeners. It glides on with no sticky residue and absorbs easily — three times faster than water, in fact.

Our Aloe Vera Spray is as close as it gets to using fresh aloe leaf. It has a smooth, fluid consistency and is free of artificial ingredients. You will feel and see the difference.

Green Leaf Naturals' aloe vera is cold-pressed from 100% organic aloe vera plants grown in Texas and certified by the Texas Department of Agriculture. It is paraben free and contains no petrochemicals, dyes, or alcohol.
