

**CHIC
FIRE**

DESIGN FIRE PROTECTION

CHICFIRE.US

A vibrant, pop-art style fire extinguisher is the central focus. It has a yellow body with a pink and blue design that resembles a woman's face in profile. A small 'SAFE' logo is visible on the front. The extinguisher is mounted on a white shelf. In the background, there are stacks of white books and a small potted plant on a white shelf.

BEAUTIFUL FIRE PROTECTION

Fully functional fire extinguishers and fire blankets to keep in plain view, instantly accessible, when every second counts.

This is the story of boring everyday objects becoming home decor talking points and clever thoughtful gifts!
