1.930m	60x60mm	3.015m	50 x 200mm	3	Clip
2.330m	60x60mm	3.015m	50 x 200mm	3*	Clip

Panel, Post, Clamp Bars:

The V-Defence mesh system allows for “stepping” to follow the topography of the site without any compromise in security and with no time consuming / costly modification requirements on site. The security steel clip fixing system is both robust and incredibly easy/fast to install.

Our custom V Defence anti-tamper fixings ensure that even the most difficult of site conditions will not hamper the appearance or performance of the system.

Aesthetically pleasing, easy to install, robust and at a price to suit almost any budget.

System Finish:

Our V-Defence mesh panels are manufactured to BS 4 102:1998 and pre galvanised with a zinc coat weight to conform BS EN 10244-2:2009 class D prior to polyester powder coating.

Our posts are manufactured in house to ensure conformity, when requested to BS EN 10305:2016 and are galvanised to BS EN 10346:2015. Panels, posts and clamp bars are polyester powder coated to BS EN 13438:2013.

All items undergo rigorous multi-stage inspections to ensure conformity to the above standards and contribute to our 10 year product guarantee.
