1 x marble top

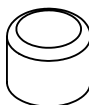

1 x metal plate

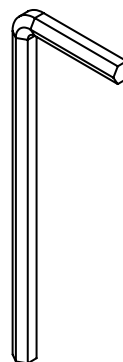

2 x marble legs

4 x 1/4-20 socket head screws

4 x push on caps

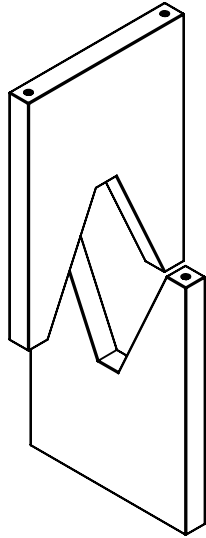

1 x hex key

Affordances

Installation Guide

M . M

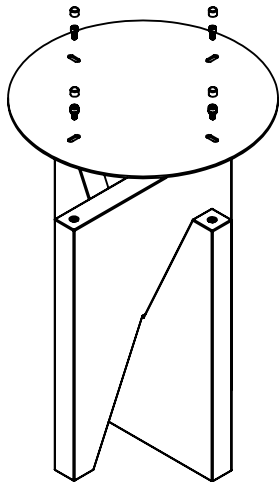

Step 1

Installing your Affordances may require two or more people. Be sure to use the utmost care when handling marble parts as they are naturally fragile and susceptible to damage.

1. Find the marble leg with the two holes located on the feet. Place this leg with the feet facing upwards and its base on the floor. Hold the first leg in place while positioning the second leg to intersect with its feet touching the ground.

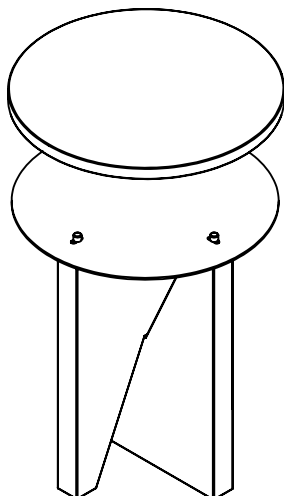

Steps 2-3

2. Align the metal plate with the slots over the holes in the legs.

3. Using the hex key provided, tighten the 1/4-20 socket head screws to secure the metal plate to the legs. Cover the heads of the screws with the push on caps.

Step 4

4. Carefully place the marble top onto the metal plate with the drilled holes registering with the screws.

* When moving your Affordances Table, please disassemble, move pieces to the new location and rebuild.
