

OZONE AIR PURIFIER/IONIZER

Enjoy the comfort of refreshed and energized air in your home or work space. This Ivation air purifier uses negative ion and ozone generation to deodorize the air and significantly reduce airborne particulates from your indoor environment.

- Reduces pollen, dust, irritants, and fumes, as well as odors from foods, tobacco, paint, mold, smoke, and pets
- Generates energizing and refreshing negative ions
- Breaks down odor-causing pollutants in the air
- Can produce negative ions around the clock to keep down dust and particulates
- Deodorizes the air with powerful ozone generation
- Covers up to 3,500 sq. ft.
- Handsome, cherry-finish wood and stainless steel cabinet
- Removable, washable ceramic plate and front grill
