

## Web Developer (m/f/d)

Miss Sophie's is a young Berlin-based beauty label that develops and distributes innovative nail wraps. If you're passionate about beauty trends and have an appetite for making the world breezier, then join us and become part of the Miss Sophie's team!

### Your tasks

- Concept implementation based on HTML, CSS, JavaScript and Liquid
- Maintaining and optimizing Shopify-Themes regarding usability and user experience
- Support for existing back-end applications in Ruby and Python

### Your qualifications

- Good knowledge of HTML, CSS, Liquid, and JavaScript
- Basic knowledge of Ruby and/or Python and PHP
- Familiar with libraries and frameworks such as React, jQuery, and Bootstrap
- Ideally, experience in working with Shopify-Themes
- Experiences with Git and NPM / Webpack
- Reliable and used to working independently
- High affinity for new media and the motivation to acquire new skills

### Our benefits

- Become a full member of the Miss Sophie's team and enjoy our stylish office in the heart of Berlin
- Responsibility from day one - your work contributes actively towards the company's success
- A steady learning process and flat organizational structure
- Flexible working hours and a great working atmosphere in a highly motivated & friendly team
- Of course, you get the latest collections of our nail wraps
