

Physician Authorization Form mindGear Stimulator

The following Purchase Authorization Form may be completed by any healthcare professional wishing to purchase the mindGear device for their practice. If you reside within the United States you may place an order, however it is required by the FDA that we receive either by email, or upload, your authorization form prior to the shipment of your first mindGear device. This form is not required for subsequent purchases or for mindGear accessories.

Authorized users of the mindGear device are any licensed healthcare practitioner (Medical Doctor, Psychologist, Psychiatrist, Chiropractor, Acupuncturist, Nurse Practitioner, Physician’s Assistant, OBGYN, Pharmacist, Physical Therapist, GP, Social Worker, etc.) who is licensed in the state that he/she practices.

*Patients with implanted medical devices such as pacemakers or nerve stimulators should not use mindGear. mindGear is safe to use with medication.

Physician Authorization Form mindGear Stimulator

Product Information for Your Reference

mindGear is the FDA cleared portable non-invasive drug free treatment for Depression, Anxiety and Insomnia. Based on decades of research at the nation's best medical centers and with thousands of satisfied users, mindGear provides you with fast-acting relief—without the complications of drugs—in the privacy of your home or work. The science behind mindGear is FDA-cleared cranial electrotherapy stimulation (CES) technology.

- Patients use mindGear once to twice a day for 15 – 30 minutes.
- mindGear is safe to use in conjunction with any medication.
- No known long-term side effects.
- Non-addictive.

* Several published studies indicate a reduction in symptoms of Depression, Anxiety and Insomnia within 4 - 6 weeks in addition to reporting no serious side effects.

* CES devices have been prescribed by 1500+ board certified doctors and are endorsed by Mental Health America. More information can be found here:
