CAPUTRON medical

**Welcome to mindgear.**

To start, insert battery correctly and
Push Power switch to On position.

### Step 1

Insert the leads into the pad electrodes
Plug the cable end into the electrode
connector.
Attach pad electrode to forehead avoiding
hair and unclean skin.

### Step 2

Press Time button for time to start blinking.
Select desired treatment time between 15
and 30 mins by pressing ▲ or ▼ button.

### Step 3

Start the treatment by pressing Start/Stop
button and wait for the intensity level (0.0) to
start blinking.
Increase intensity between 0.1 and 1.5mA by
pressing ▲ until tingling is felt and comfortable.

**Relax and Enjoy the relief of mindgear as
time decreases to zero.**
